**4th International
Moyamoya Meeting
Berlin, July 2-4, 2015
Germany**

**An interdisciplinary approach
to a rare disease**

Venue

Kaiserin-Friedrich-Haus
Robert-Koch-Platz 7, 10115 Berlin

www.moyamoya2015.com

Moyamoya Disease is a rare disease of children and adults characterized by multiple steno-occlusive changes around the circle of Willis, leading to a significantly increased stroke risk. Although the first patients were identified among the Asian population recent epidemiological studies have shown that Moyamoya Disease also contributes markedly to rare causes of stroke among European patients. In part, this is due to an increased awareness among physicians dealing with these patients. The aim of this meeting is to further foster international training and education in this rare disease, and to improve our understanding of the underlying disease as well as current and future therapeutic options. The theme of this 4th International Moyamoya Meeting is to strengthen the interdisciplinary approach, bringing together neurosurgeons, neurologists, paediatricians, neurointensivists, and stroke epidemiologists. Furthermore, we aim at unravelling the complex vascular biology underlying the disease. Therefore, we will highlight the basic science biology of neurovascular development and angiogenesis, vascular plasticity and remodelling, neurovascular signalling, as well as neurovascular genetics.

Prof. Dr. Peter Vajkoczy

Congress President

Department of Neurosurgery
Charité - Universitätsmedizin Berlin
Augustenburger Platz 1, 13353 Berlin, Germany

Congress Secretary

PD Dr. Marcus Czabanka

Department of Neurosurgery
Charité - Universitätsmedizin Berlin
Augustenburger Platz 1, 13353 Berlin, Germany

Scientific Committee

Prof. Kiyohiro Houkin, MD, PhD

Hokkaido University, Graduate School of Medicine
Department of Neurosurgery
Hokkaido, Japan

PD Nadia Khan, MD

University Children's Hospital
Department of Pediatric Neurosurgery
Zurich, Switzerland

Gary K. Steinberg, MD, PhD

Stanford University
Department of Neurosurgery and Stanford Stroke Center
Stanford, USA

Congress Organization

Porstmann Kongresse GmbH (PCO)
Alte Jakobstr. 76 | 10179 Berlin
